**GTP Global Textile Partner  
At ITMEX Americas (Sao Paulo, 2009)  
Hall 1 – Booth C109**

**“Weaving with full confidence,  
growing into the future”**

Today, weavers can no longer neglect the importance of using most reliable & innovative accessories which will strengthen production efficiency and fabric quality. Your mill needs a solid partner who pays utmost attention to qualitative materials, unique designs and innovative features.

With more than a century of experience in designing & innovating weaving accessories, GTP Global Textile Partner, delivers what you need: consistent high-quality and performance-proven solutions.

A solid guarantee to weave with full confidence, meter after meter. With GTP you are always ready for the future. Visit GTP during ITMEX Americas in Sao Paulo (Brazil) where you can discover the newest innovations in weaving accessories.

**Frames for high-level performance:**

- HybridPower 158 : the high-speed frame with carbon reinforcement, allowing to weave also without center support on frames up to over 400 meter
- Sulzer Projectile frames with extra rigidity in combination with the best Steel Heddle LENO system
- XLF152 frame with integrated heddle damper (patented) for lowest heddle vibration
- AluPower 124 frame for standard applications on both air & rapier machines with the unique flexible corner connection (R-flex)

**Heddles of consistent high-quality:**

- Jet-Eye heddle for lowest friction of the warp yarn in the heddle eye
- Exclusive tempered leno heddle for longest life time at highest speeds
- Thinnest 0,20 mm heddle for mesh screen weavers or delicate fabrics
- Ni-plated heddles, our specialty product for silk weavers
- Flat steel Heddles from Simplex – Duplex with any eye size, in any length for any application
- Narrow fabric heddles including hard chrome plating for ribbon weaving

**Drop wires for any application:**

- From INOX to zinc plated, suitable for any automatic drawing-in machine

**Reeds ... even for the glass industry:**

- High-precision airjet reeds
- Special wear resistant reeds for glass weaving applications

**Latest nozzles generation:**

- Both ECO & POWER nozzles for any loom type available, ensuring energy savings and higher weaving speeds

**‘Select reliable & innovative weaving accessories  
so your mill is ready for the challenging future.’**

Today, it is time to discover the most reliable & innovative accessories. As you need to strengthen your production efficiency and fabric quality for the future.
