

Press Release
12 01 2010

**GTP Global Textile Partner
at the 7th Dhaka International Textile &
Garment Machinery Exhibition (Bangladesh)
2-5 February 2010
Booth 252**

GTP... the true Textile Partner

With more than a century of experience in designing & innovating weaving accessories, GTP Global Textile Partner, delivers what you need: consistent high-quality and **performance-proven solutions for any textiles** including leno, glass, filter and narrow fabrics.

Creating the best weaving accessories for delivering you the **best fabric quality and highest efficiencies;** that is our drive.

In the picture on DTG 2010

As leader in innovative accessories for the textile market, visitors at the GTP booth will have the opportunity to see the latest designs of Steel Heddle accessories (frames, heddles & drop wires) and Burcklé reeds.

Our focus will be our **leno** and our **JET EYE[®]** heddles. Both specialty products that bring highest fabric quality. As well as the **high-speed HybridPower 158 frame with carbon fiber**, highly known and valued in the world of technical textiles weavers for its highest performance. GTP also offers at this exhibition its cost-effective RPF500 frame for rapier machines.

Innovative weaving accessories for the best weaving performance

High-speed performance with Steel Heddle frames:

- HybridPower 158 : the high-speed frame with carbon reinforcement, allowing to weave also without center support on frames up to over 400 meter
- Sulzer Projectile frames with extra rigidity in combination with the best Steel Heddle LENO system
- XLF152 frame with integrated heddle damper (patented) for lowest heddle vibration
- AluPower 124 frame for standard applications on both air & rapier machines with the unique flexible corner connection (R-flex)
- NEW: the cost-effective rapier frame RPF500; the economical frame for standard rapier frames

Consistent high-quality fabrics with reliable Steel Heddle heddles:

- Jet-Eye heddle for lowest friction of the warp yarn in the heddle eye
- Exclusive tempered leno heddle for longest life time at highest speeds, especially for technical weaving applications.
- Thinnest 0,20 mm heddle for mesh screen weavers or delicate fabrics
- Ni-plated heddles, our specialty product for silk weavers
- Flat steel Heddles from Simplex – Duplex with any eye size, in any length for any application
- Narrow fabric heddles including hard chrome plating for ribbon weaving

Drop wires for any application:

- From INOX to zinc plated, suitable for any automatic drawing-in machine

Highest efficiencies with Burcklé reeds ... even for the glass industry:

- High-precision airjet reeds
- Special wear resistant reeds for glass weaving applications

Latest nozzles generation:

- Both ECO & POWER nozzles for any loom type available, ensuring energy savings and higher weaving speeds

About GTP

GTP is leader in the production of high-class weaving accessories under the brands Steel Heddle, Burcklé and Te Strake Textile. With over 110 years of expertise in delivering reliable weaving accessories, and more than 2000 valued customers around the globe, GTP knows how to get the best performance out of your loom in a cost-efficient manner.

Our GTP specialists will be pleased to offer solutions for your challenges. Your nearest GTP representative can be found on www.globaltextilepartner.com or you can contact us on sales@globaltextilepartner.com for further information.
