09 09 2008

**GTP Global Textile Partner  
on ITME India 2008  
Hall 2 – Booth C109**

**‘ F o r b e t t e r w e a v i n g ’**

GTP Global Textile Partner presents its complete range of high-quality and performance-proven weaving accessories during ITME India in Bangalore. As the world's leading manufacturer of innovative and quality weaving solutions, GTP will be demonstrating its unique designs and new product developments for the weaving mill.

And we go even further.... our GTP specialists of weaving accessories will provide you first-class advice to achieve better weaving performance. The right selection of GTP weaving accessories will guarantee you better fabric quality, higher productivity and significant cost savings. Therefore, we sincerely invite you to our GTP booth (Hall 2, Booth C109) where you can join us to celebrate the 110<sup>th</sup> anniversary of Steel Heddle<sup>®</sup>.

As true Global Textile Partner, we are at your service for achieving a better weaving performance !

**STEEL HEDDLE**

 *Heddles*

### 110 years heddle experience ... your success

Leading loom manufacturers and weaving mills are experiencing the unique value of Steel Heddle® Heddles.

-  Jet-Eye® for reduction in filamentation
-  Ultimate finish for extreme delicate weaving
-  Unique leno design made out of tempered stainless steel for highest speeds

Discover the advantages these products can bring to your weaving mill.

**STEEL HEDDLE**

 *Frames*

### Fast & wide ... no limitations

With the development of the high-speed HybridPower 158 frame, Steel Heddle® created a new standard, necessary for optimal usage of the fastest generation of airjet looms.

On wider widths, the HybridPower 158 even allows weaving without center support to increase your fabric quality ! A real-life performance of this astonishing development can be witnessed live on our booth.

 *Nozzles*

### Energy savings on your loom

Additionally, at ITME India we are proud to introduce the New Nozzle Generation: ECO and POWER. Te Strake Textile helps you maximizing the profit of your airjet investment with the best nozzle on the market. Providing you with more durable nozzles and savings up to 20% on air consumption or achieving higher insertion speeds ... Discover the enormous potential you can achieve in your weaving mill.

**Burcklé**

 *Reeds*

### The reed specialist... value for your weaving mill

Offering complete solutions for our customers, that is our aim. Burcklé provides the exclusive Wear Resistant reeds for longest life time. Cutting-in of the reed is significantly reduced, even when weaving abrasive glass fibres and highly aggressive yarns.

Known for its high quality reeds, Burcklé services many customers worldwide for better weaving. Experience the quality of our Burcklé reeds at our GTP booth C109 – Hall 2.
