Subject: PRESS RELEASE - ITMA Asia + CITME 2008 –

**GTP Global Textile Partner
on ITMA Asia + CITME 2008
Hall E6 – Booth B12**

‘ For better weaving ’

As the world's leading manufacturer of innovative and quality weaving **solutions**, GTP Global Textile Partner presents its complete range of quality and **performance- proven** weaving accessories.

And we go even further.... our specialists of weaving accessories will help you select the best accessory to bring you better fabric quality, higher productivity and significant cost savings. Therefore, we sincerely invite you to our GTP booth Hall E6 - Booth B12 where you also can join us to celebrate the 110th anniversary of Steel Heddle[®].

As true Global Textile Partner, let us be at your service for better weaving performance !

STEEL HEDDLE

 **Heddles**

Leading loom manufacturers and weaving mills are experiencing the unique value of Steel Heddle[®] Heddles.

-  Jet-Eye[®] for reduction in filamentation
-  Ultimate finish for extreme delicate weaving
-  Unique leno design made out of tempered stainless steel for highest speeds
-  **Flex** Lite heddle as an answer for water-jet weavers

Discover at our booth the advantages these products can bring to your weaving mill.

STEEL HEDDLE

 Frames

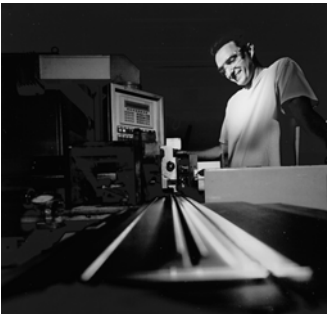

With the development of the HybridPower 158 frame, Steel Heddle® created a new standard, necessary for optimal usage of the fastest generation of airjet looms.

On wider widths, the HybridPower 158 even allows weaving without center support to increase your fabric quality ! A real-life performance of this astonishing development can be witnessed live on our booth.

Additionally, we are proud to introduce at ITMA Asia 2008 our New Nozzle Generation: ECO and POWER. Te Strake Textile helps you maximizing the profit of your airjet investment with the best nozzle on the market. Providing you with more durable nozzles and savings up to 20% on air consumption or higher insertion speeds ... Discover the enormous potential you can achieve in your weaving mill.

Offering complete solutions for our customers, that is our aim. Burcklé provides the exclusive MA 33 reeds for abrasive glass fibres and highly aggressive yarns.

Known for its high quality reeds, Burcklé services many customers worldwide for better weaving. Experience the quality of our Burcklé reeds at our GTP booth.
